

ZEMEST Full-Stack Audit

COMBINED
SYSTEM GRADE

A twenty-agent, evidence-first audit of both Zemest repositories: the FastAPI AI-moderation backend (23,116 lines of Python, 79 API endpoints, 18 data models, 452 tests) and the Next.js 16 platform (15,597 lines of TypeScript, 26 marketing pages, 18 dashboard and admin views). Every function, endpoint, model, and integration point traced to file and line.

SCOPE — zemest · zemest-platform

METHOD — 20 parallel analysis agents + verification

FINDINGS — 46 security findings · 10 critical

DATE — August 28, 2026
